ASPHERIC CONNECTORIZED COLLIMATORS

DESIGNED FOR USE WITH FC/PC, FC/APC, AND SMA PATCHCORDS

- Diffraction Limited Performance
- FC/PC, FC/APC, and SMA
- Rugged Stainless Steel Housing
- Pre-Aligned for Popular Wavelengths
- Connectorized for Quick Assembly
- Threaded Exterior for Easy Mounting
- Epoxy-Free Optical Path
- Compact Size

LightPath's® line of connectorized aspheric collimator assemblies combine the outstanding performance of glass molded aspheric lenses with the ease of assembly of a fiber connector interface. The assemblies have a threaded exterior, which allows a quick connection to an optical bench or within an instrument. LightPath's® connectorized collimators are available with FC/PC, FC/APC, or SMA fiber optic connectors. Each collimator is individually aligned and tested for the specified wavelength, and will offer excellent performance throughout the entire range of their AR coatings.

Standard design assemblies are available for three of our most popular lens types, but any asphere in our catalog can be mounted into a custom assembly of your choice. Please contact LightPath® sales for more information.
